

Koka Children Project

~ Social and Environmental Development Organization ~

Koka, 19 April 2020

Dear reader,

Last week we asked for your support to donate for the food support programme in Koka, to supply the children and their families with food.

We are overwhelmed by all gifts, smaller and larger, that we received. We are very thankful that you all together gave a little more than 6.000 Euro. We have no words to express our thanks for this.

Last Thursday the project staff distributed flour, oil and soap to the children and families. This weekend we celebrate Ethiopian Easter, one of the most important religious holidays. It is very welcome that the families can make something extra, with the flour and oil for this holiday.

In the coming weeks, we will continue distributing food. With the large amount of donations that we received, we can also continue with food support after the initial 4 weeks. Most likely this is needed.

If you have any question, please mail or send a WhatsApp to Marijke: marijke@koka.nl

**On behalf of Koka's Children and their foster families:
Thank you very much for your donation**

Warm regards,

Erick and Marijke Westerman
